

## Voyageur Council Cargo Truck

**Final Price: \$307 / pallet (includes \$25 CJ Receiving Fee).**

**Location: Cabela's - 3065 Palladium Drive@417, Ottawa**

**Loading Date: Thursday, June 29      Unloading Date: Monday, July 24**

### Final Payments

All patrols will receive a receipt for \$307/pallet at Cabela's on loading day.

If you have not already made a final payment, you may **bring a cheque** for \$307 minus \$50 deposit = \$257/pallet to Cabela's on loading day.

If have already made a final cargo payment of \$250/pallet at pre-camp, you may either bring a replacement cheque of \$257/pallet to Cabela's on loading day, or slip the loadmaster the \$7 difference in cash. Either way, you will get the receipt for \$307/pallet on loading day.

If you made a payment greater than \$307/pallet, you will receive a refund by cheque on loading day.

### Scheduling of Loading/Unloading

Patrols/Groups bringing already-packed 'fork-ready' pallets are assigned to **4:30pm** on June 29. If you cannot arrive at that time, contact the administrator ([scouts@trusler.com](mailto:scouts@trusler.com)) for advice. Forklift-ready patrols should arrive for unloading/transfer at **3:30pm** on July 24 for best results.

All other Patrols/Groups will select a 30 minute arrival window for packing/unpacking their pallet on each date. There is a maximum of 4 reservations per time window. Please identify by your Group name in the polls. Groups with more than one patrol/pallet packing them separately may opt to make separate reservations and append PU numbers to the identification in the poll. **Exception for PU2039:** PU2039 must identify/reserve separately from the other three 23<sup>rd</sup> Nepean patrols, even if you all select the same arrival window.

The June 29 loading poll is here: <http://doodle.com/poll/xphtfftsyx69cgzh>  
Arrival windows are available from **5:00pm to 7:30pm** inclusive.

The July 24 unloading poll is here: <http://doodle.com/poll/vgvwqmkdnm8sq98>  
Arrival windows are available from **4:30 pm to 7:30pm** inclusive.

**Note:** If you pick the last available window, please arrive at the start of the window, so that your stuff gets on the truck.

### Shipping Labels

CJ will email pallet shipping labels (aka bills of lading) to patrols for each pallet, for each direction. You will want to print at least 2 copies. Part A is to be attached securely to your pallet in a waterproof fashion. i.e. Ziploc-ed or laminated, then stapled or taped to something under the pallet wrap. **Must** be clearly visible once wrapped. Patrols need 2 copies of A, one for each direction (1 on the pallet on June 29, the other carried to CJ by the responsible Scouter, to be placed on the pallet at the end of CJ).

Part B of the shipping label is to be carried to CJ by the Scouter(s) in charge of the pallet. If it is lost, access to the pallet at CJ will be denied. If the pallet is shared by more than one patrol, PLEASE make copies so each patrol can have access to the pallet, especially if they aren't travelling together, both directions.

### **Skids and Wrap**

Voyageur Council Contingent is **supplying patrols with skids and wrap** on loading day. More wrap will be sent on the truck so it is available to Voyageur Council patrols when wrapping their pallets at CJ for the return trip.

Patrols may supply their own skid, but **please notify** the Administrator (scouts@trusler.com). Otherwise, a skid will be provided for you on loading day at Cabela's.

CJ says that patrols may leave their skid at CJ in the cargo area, but does not monitor the site during the event, so CJ recommends that patrols carry their skid to their site. This decision is up to each patrol, skids have typically been left in the cargo area at previous Jamborees. Voyageur Council recommends that if you wish to leave your skid, mark the solid side of your skid in a prominent, permanent fashion with your Group or PU #. Remember to do this *before* you wrap your skid.

Patrols that are loading and wrapping their gear before getting to Cabela's are known as 'fork-ready'. Be sure that the fork openings on the skid are facing the tailgate! Also make sure that your bill of lading is inside your wrap, or otherwise properly secured, visible and weather-proof.

### **Bonus Round**

On loading day, **each patrol will receive \$40 in coupons** towards purchases at Cabela's. Cabela's will be open at the time of loading and unloading in case your patrol requires last-minute replacement of forgotten or broken gear.
